- Review their set tasks within a specified time limit.

Fossasia

October 2018 - Present

Projects

College Bus Trajectory App

FIREBASE(AUTHENTICATION, REMOTE CONFIG, FIRESTORE, STORAGE), FRAME AND FRAGMENT, GOOGLE MAPS,

GOOGLE LOCATION API

Bus trajectory app is a location-based app, which tells us the real-time location of any bus. The app would prove to be extremely useful to students to locate their school/college buses.
